We're Here to Help

To discuss how specific ThermaSol products and features can fit into your unique project, schedule a one-on-one consultation at www.thermasol.com/scheduleappointment.

Experienced customer service professionals, as well as facility-trained field support staff, are also available at **800.776.0711** to assist you with the design process.

Complete installation instructions for all models are available at www.thermasol.com.

Why ThermaSol Leads The Industry

Lifetime - Factory Limited Warranty

Warranty: Pro and SSA – an industry first. Only from ThermaSol. After the in-home warranty is up, send the unit to the factory and ThermaSol will repair the failure, including parts and labor.

State-of-the-Art Controls

The new in-shower ThermaTouch 7" and 10" LCD touchscreen controller allows you to control steam, sound and user settings, access Tranquility, operate the Serenity Light, Sound, Rainhead, video or music apps, and more.

SmartSteam™ (patented) Only From ThermaSol

The most desired feature of any steam shower system! You won't see this cutting-edge technology, but you will feel it! The ultimate in temperature control and energy conservation.

PowerFlush Only From ThermaSol

Specifically engineered to purge calcification build-up from the inner tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed inner tank "speed slots" to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank, removing build-up.

Constant Steam at a Constant Rate (patented)

Only from ThermaSol. No irritating steam lags and bursts.

NEW

SteamVection Steamhead

Innovative design creates a convection-like effect, directing incoming steam to the bottom first to create consistent temperature levels throughout the entire shower.

Split Tank Technology Only From ThermaSol

Provides constant steam at a constant rate while ensuring trouble-free reliability. This highly efficient system delivers uninterrupted boiling by pre-heating water in the water reservoir and passing it to the boiling side only at the exact rate of steam production.

FastStart™ Technology (patented)

Steam in seconds, not minutes. FastStart deactivates if the generator is not used in 7 days. FastStart reactivates upon use.

Digital Two Way CAN-bus Technology Only From ThermaSol

Only from ThermaSol. The safest and most reliable communication technology in the industry.

Infrared Sensing Technology Only From ThermaSol

Reads temperature more accurately and much faster than standard contact temperature sensors. Available with the MicroTouch and ThermaTouch controls.

Simply Sized Only from ThermaSol

ThermaSol generators are easy to size:
 $L \times W \times H = \text{Cubic Feet}$. No complicated formulas.

No Upsizing

ThermaSol generators can be installed up to 50 feet away from the shower without upsizing.

Tranquility

With nine unique scenes to choose from, ThermaSol's Tranquility mode combines imagery and sound themes from nature to help create a totally immersive steam shower experience. Accessed and viewed on ThermaTouch and integrated with Serenity Light, Sound, Rainhead.

Water Conservation – The Green Side of Steam

ThermaSol steam shower units use only one gallon of water to power a 20-minute steam session.

Innovative Technology Only From ThermaSol

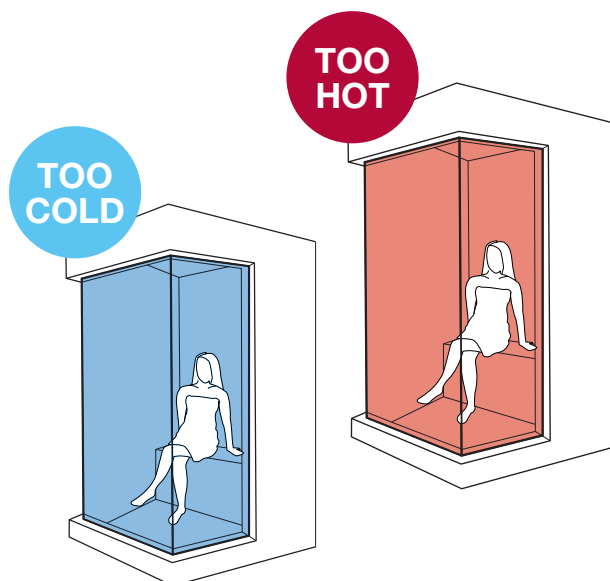

On ProSeries™ model ThermaSol steam generators

SmartSteam

The ultimate in temperature control. Available on ProSeries™ models only

How it Works: SmartSteam™ produces the precise volume of steam required to maintain your desired room temperature while providing a quiet, relaxed experience. This is accomplished by metering the output of power; the unit only uses enough power to support your requested temperature – no more, no less.

Generators without SmartSteam™ have annoying temperature fluctuations.

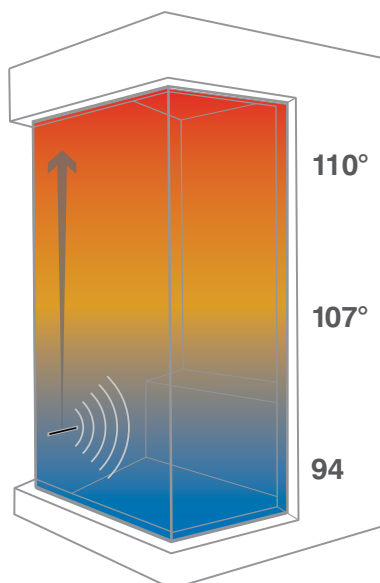

SmartSteam™ delivers the ultimate in temperature maintenance—without annoying temperature fluctuations! The optimum in user comfort.

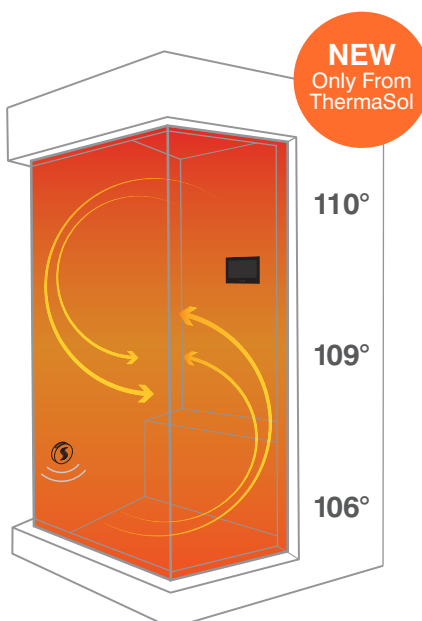

SteamVection (Industry Best for Room Temperature Uniformity)

ThermaSol engineers have used the proven science of convection to create an industry first: the SteamVection steamhead.

Steam showers without SteamVection have uneven temperature distribution

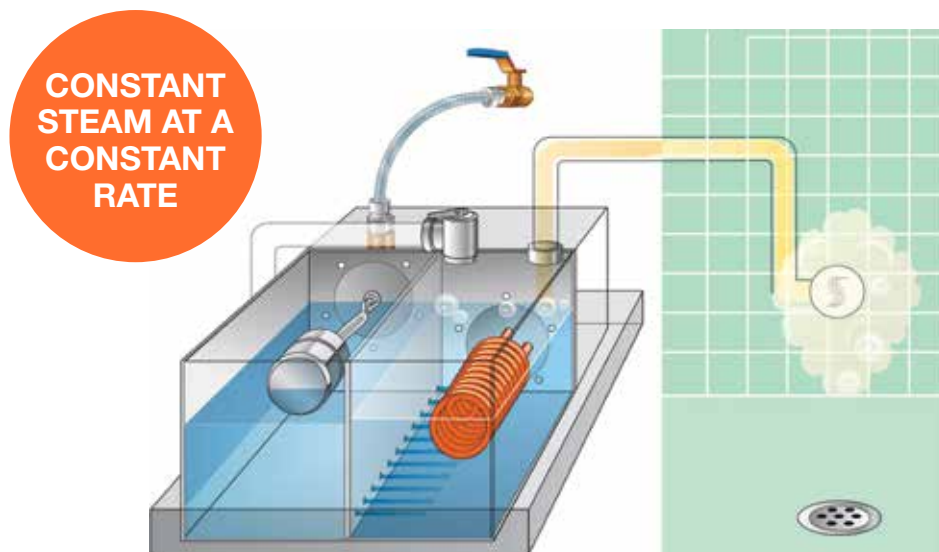

ThermaSol steam showers with SteamVection create floor-to-ceiling temperature uniformity.

How it Works: ThermaSol engineers have used the proven science of convection to create an industry first: the SteamVection steamhead. This state-of-the-art design delivers floor-to-ceiling temperature uniformity within the steam shower while adhering to ThermaSol's trademark functionality, design and safety. For users, this means consistent and even temperature zones—no longer variable heat ranges that typically occur in steam showers. ThermaSol's steamhead also allows the closest proximity to the outlet called, "the steam emitting area." This is a mere three inches from the wall, thereby avoiding intrusion into one's usable shower space. SteamVection by ThermaSol: "The Superior in Safety."

Innovative Technology Only From ThermaSol

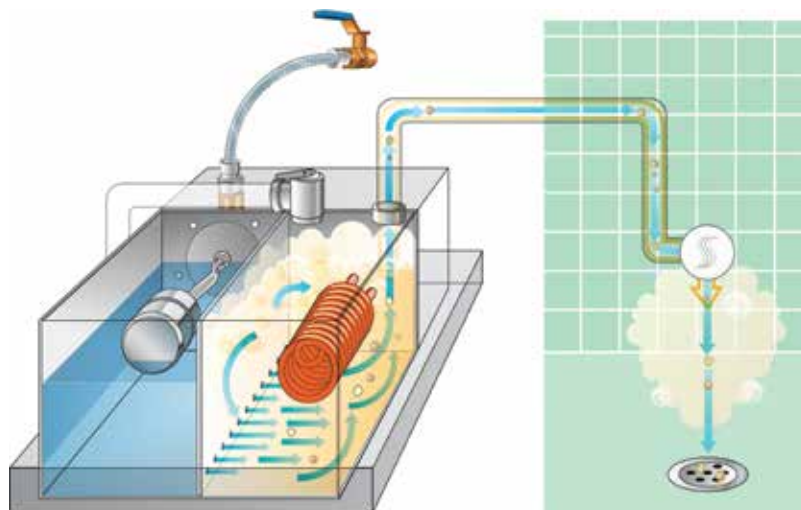

On ProSeries™ and SSA model ThermaSol steam generators

Split Tank Technology

Providing constant steam at a constant rate while ensuring trouble free reliability! No solenoid noise or irritating steam lags or bursts.

How it Works: Water is pre-heated in the water reservoir and passes to the boiling side only at the exact rate of steam production. This highly efficient system delivers uninterrupted boiling, providing constant steam flow at a constant rate... and can't be found on competitive brands.

PowerFlush

It's like having your own service technician!

How it Works: PowerFlush was specifically engineered to purge calcification build-up from the inner tank. This unique system uses a combination of household water-line force (40 to 80 lbs.) and specially designed inner tank "speed slots" to increase the water velocity. This concentrated thrust of water pressure effectively sweeps the bottom of the tank, removing build-up.

Building a Steam Shower

ThermaSol has taken the guesswork out of the specification process, boiling it down to four easy steps.

LET'S GET STARTED

Step 1

CALCULATE SHOWER SIZE

Simple Sizing Formula: $L \times W \times H = \text{Cubic ft.}$

For every foot of ceiling height over 8 ft., use the next larger steam generator. (up to 10 ft.) All interior wall material is irrelevant.

EXAMPLE: $4' \times 5' \times 8' = 160$ cubic ft.

Step 2

CHOOSE A GENERATOR

Based on the Simple Sizing Formula ($L \times W \times H = \text{Cubic ft.}$), select a steam generator and choose the generator's location. Generator model number is the maximum cubic foot for that generator.

EXAMPLE: PRO-240 generator supports a maximum 240 cubic ft. shower.

Step 3

CHOOSE CONTROLS+STEAMHEAD

Choose control package and style.

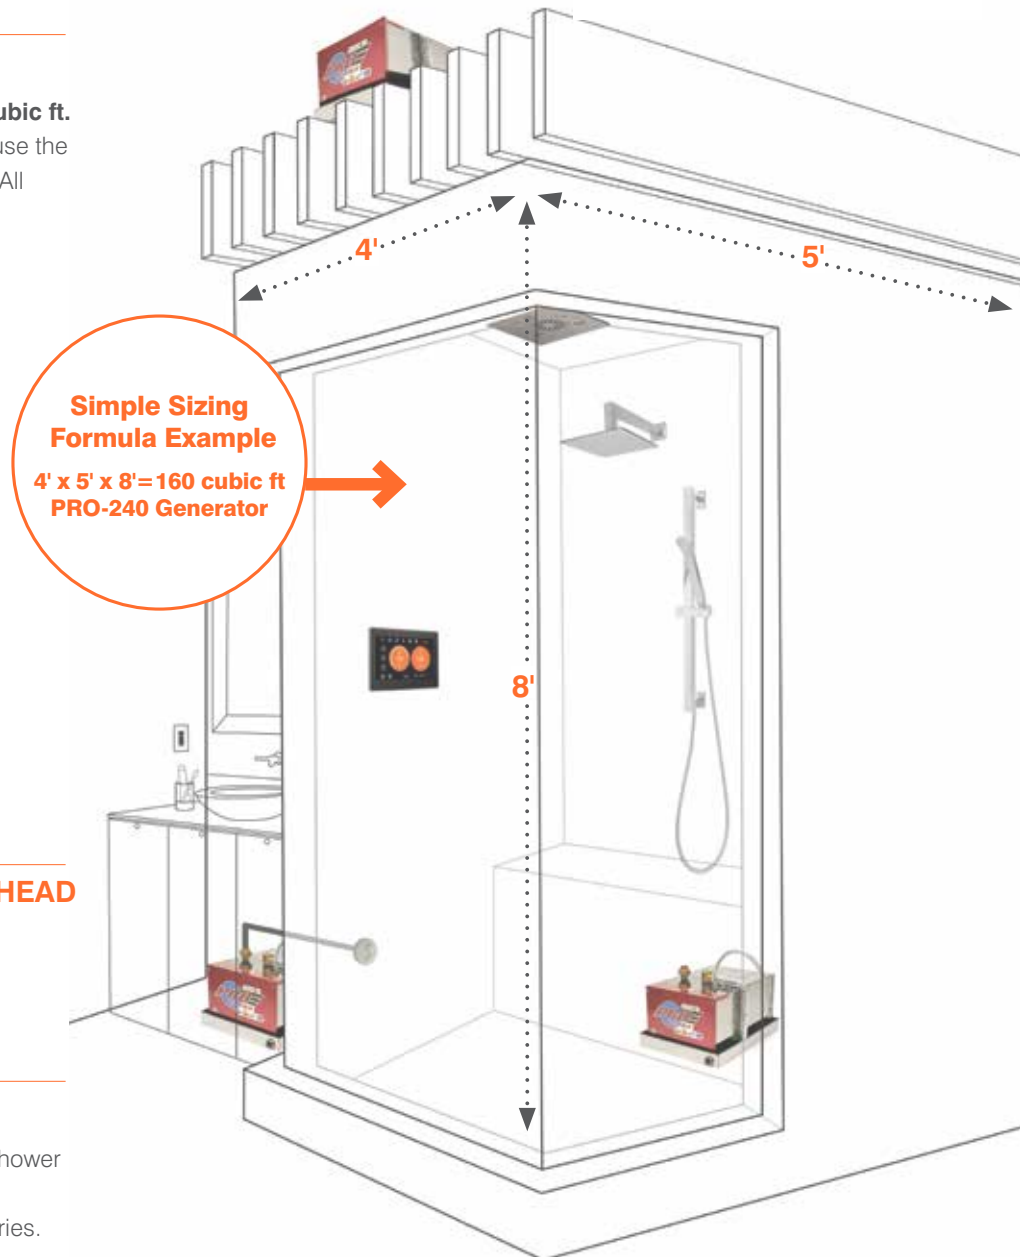

Step 4

CHOOSE ACCESSORIES

Put the finishing touches on your steam shower with ThermaSol's stylish collection of fog-free mirrors, seats and other accessories.

Installation Note

We do not recommend a ceiling height exceeding 10 ft. Lowering ceiling height to 8 ft. helps create a more efficient steam room.

NOTES

- ✓ ThermaSol's generators can be placed up to 50 feet from the shower; in an attic, closet or below a sink are ideal locations.
- ✓ Make sure the walls, ceiling and floor materials are suitable for use with steam. If using acrylic walls, they must be steam rated from the purchased manufacture. ThermaSol only recommends SSA-ACR generator for acrylic modules. ThermaSol is not responsible for materials purchased from other manufactures in steam environment.

PRO-1000	Generates up to 1000 cubic ft. / 24 kW	5,645	+	345	+	425	+	495	+	•	+	•	= \$6,910

These cutting edge features are included in the **TOTAL PRICE** for steam generator

Steam Generator: 17" L x 11 1/2" W x 12" H
Pan: 18 1/2" L x 13 3/4" W x 2" H
50' Cable and Steamhead Rough-in Included

MODEL	AMP 240 VAC	WIRE	BREAKER	PHASE	ELECTRICAL
PRO-84	28	10	30	1	NEMA 6-30P
PRO-140	37	8	40	1	NEMA 6-50P
PRO-240	46	8	50	1	NEMA 6-50P
PRO-395	55	6	60	1	Hardwire
PRO-575	69	4	90	1	Hardwire
PRO-895	92	4	100	1	Hardwire
PRO-1000	110	0	120	1	Hardwire

+ ELECTRICAL REQUIREMENTS

Units over 50 AMP must be hard wired.

Use copper wire rated at 90° C per NEC.

‡ Acrylic modules must be approved for steam use.

Tips:

- A control kit is required to complete the steam system
- The generator ships with a 50 ft. CAN-bus cable for the control and a steamhead rough-in

Calculate Generator Choice

Simple Sizing Formula: Shower L x W x H = Cubic ft.

For every foot of ceiling height over 8 ft., choose next size generator. (up to 10 ft.) All interior wall material is irrelevant.

EXAMPLE: 4' x 5' x 8' = 160 cubic ft. choose model 240

Optional Generator Accessories

For prepurchase/delivery rough-in kits see page 37

Product Details

NEW

Digital Shower Valve

Synchronize and customize the user's shower experience.

With a minimalist look desired by top architects, ThermaSol's Digital Shower eliminates the need for exposed valves and trims. The integrated system reduces installation costs and allows the budget to be invested into building a state-of-the-art shower environment.

- Industry leading ceramic disc Flühs valves ensures reliability and safety
- Operates two industrial grade stepper motors with 400 positions that take away the noise factor found with solenoid valve systems and provides precise temperature control
- May be installed up to 30 ft. away from shower
- Three output valve - Example: Rainhead, Hand Shower and Standard Showerhead
- Battery backup included
- Output 9.25 GPM at 45 PSI
- IAPMO Approved

ThermaTouch Control Only From ThermaSol (7" and 10" Sizes)

The ThermaTouch LCD in-shower touchscreen controller manages all aspects of the digital shower and steam generation, from steam duration and temperature to operation of audio and lighting modes.

- Choose and download from a variety of the most popular Apps; shows, news, weather, video content, music and more
- Fully waterproof, ThermaTouch can be installed anywhere: a shower, bathing area, patio, etc.
- Built-in Bluetooth®
- Ethernet connection
- WiFi-enabled capabilities ensure that users automatically receive any updates to the software right to the controller, in-home after purchase.
- Powered by Android™
- Stereo audio output
- Alexa compatible (Available Summer 2019)
- Date and time display
- Set steam time and temperature
- Set and control preferences for two users
- Operates: steam, digital shower, light sound and rainhead.

NEW

SignaTouch Control

Available in a 5" LCD in-shower touchscreen, the streamlined SignaTouch In-Shower Control controls digital shower and steam functions, and can operate Serenity Rain, Light and Sound when installed.

- Can be mounted vertically or horizontally
- Built-in Bluetooth®, stereo audio output and when paired with light sound rain head system.
- Two customizable user settings
- Available in 15 trims and finishes
- Recessed design for seamless installation
- Date and time display
- Set steam time and temperature
- Operates: steam, digital shower, light sound and rainhead.

Can Be Mounted Vertically or Horizontally

Shown Horizontal

NEW

SteamVection Steamhead Only From ThermaSol

ThermaSol engineers have used the proven science of convection to create an industry first: the SteamVection steamhead. This state-of-the-art design delivers floor-to-ceiling temperature uniformity within the steam shower while adhering to ThermaSol's trademark functionality, design and safety. For users, this means consistent and even temperature zones – no longer variable heat ranges that typically occur in steam showers. ThermaSol's steamhead also allows the closest proximity to the outlet called, "the steam emitting area." This is a mere three inches from the wall, thereby avoiding intrusion into one's usable shower space. SteamVection by ThermaSol: "The Superior in Safety."

- Whisper quiet
- Essential oil well for aromatherapy experience
- Streamlined 1 3/4" x 1 3/4" dimensions
- Two new aesthetically pleasing designs (Circular and Squared)
- 15 different finish options

Serenity Light, Sound, Rainhead Only From ThermaSol

The sleek all-in-one Serenity Light, Sound, Rainhead delivers chromatherapy, sound therapy and a gentle falling water sensation for a truly soothing shower experience.

- Gentle falling water sensation through two rows of 82 jets**
- Gradually changing mood lighting mode generates a soothing spectrum of color
- Total estimated luminous flux at full brightness is 684 lumens
- High-performance trilinear sub-woofer with high-frequency drivers and high-efficiency class D amplifier
- Voice response feedback
- One RCA audio input
- Ceiling mounted single self-contained module, system can be installed without access from above

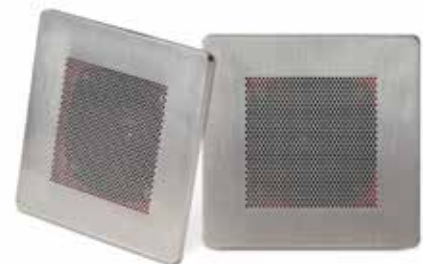

NEW DESIGN

* Serenity Light, Sound, Rainhead or In-Shower Speakers are required for sound

** Rainhead rated at 1.8 GPM; requires separate volume control or diverter port with shut off valve

Self Powered Bluetooth Speakers

- Play music in your shower
- No additional equipment needed

Bluetooth

Matching Rain Canopy, Handshower and Body Sprays

- Operates with ThermaSol's Digital Shower Valve
- Available in 5 finishes: Oil Rubbed Bronze, Polished Chrome, Polished Nickel, Satin Nickel and Matte Black.

WARNING: Always have shower closed when steam shower is operating.

Do not use this product unless you have consulted with your doctor and received written permission to do so. Use of this product may be hazardous to your health.

Never attempt to fill aroma reservoir on the steamhead when unit is in the "ON" position. Severe burns will occur. Steam is HOT! Do not touch or go near the steamhead from the time the unit is "ON", up to one hour after it has shut off. Severe burns will occur if you come in contact with the steamhead or steam emitting from the steamhead. Your shower may be a slip and fall hazard. Check with your contractor or flooring manufacturer regarding the safe use of your flooring in a steam application. Slipping and falling into the steamhead itself or into the stream of steam emitting from the steamhead will cause serious burns, or physical injury. If you are feeling dizzy, faint or starting to fall asleep immediately exit the steam room. Do not use steam room under the influence of alcohol or drugs, as this can be hazardous to your health. Do not use aromatherapy oils or skin care products or any product in conjunction with your steam unit without consulting with your allergist or doctor before use. These products may be hazardous to your health. Do not use steam room if you are under the age of 16 unless you are supervised by an adult. Specifications and prices are subject to change without notice. All prices

shown are in US dollars. All products must be installed in accordance with installation instructions provided. Failure to do so may invalidate warranty at manufacturer's discretion. After January, 2011 please confirm pricing. Terms: All orders NET 30. Minimum order - \$15.00. All Sauna Equipment FOB Factory. All Steam Equipment FOB California Restocking charge of 15% for pre-approved returned merchandise. All returns require a ThermaSol RMA number. ©2019 ThermaSol.
