

EASY TO CLEAN

Cleaning the grease from behind the filter is nearly impossible. Access is limited by components and sharp protrusions. Even the motor gets greasy.

MAGIC LUNG®

VS

OTHER BRANDS

The E-Z Clean System makes routine cleaning easier than ever. Simply slide out the collection tray, wipe it off, or pop it in the dishwasher, and you are done.

FIRE SAFETY

Cooking fires are the leading cause of home fires (150,000 per year - NFPA). Filters are flammable and can sustain a secondary fire near the inlet to the blower leading to a duct fire. Fire insurance claims against filtered hoods are common.

MAGIC LUNG®

VS

OTHER BRANDS

The Magic Lung® Constant-Speed Blower is designed to keep grease and flame from entering the duct. In over 75 years, Vent-A-Hood has never received a report of an attic or wall fire when the Magic Lung® has been in use.

WARRANTY

MAGIC LUNG®
5 YEARS

VS

OTHER BRANDS
1 YEAR

We've got you covered with the best warranty in the industry. Vent-A-Hood has long been the most respected name in ventilation. Our products are guaranteed to work and we stand on over 75 years of manufacturing the highest quality ventilation products. Our family is devoted to your satisfaction.

Vent-A-Hood®

Vent-A-Hood®

**The Most Respected Name in
Ventilation for Over 75 Years!**

THE VENT-A-HOOD DIFFERENCE

GREASE EXTRACTION

Laboratory testing of competitive units shows that only about 30% of the grease is collected in the filter during typical residential cooking.

MAGIC LUNG®

VS

OTHER BRANDS

The patented Magic Lung® centrifugal grease extractor collects 99% of the grease 100% of the time

QUIET & POWERFUL

Variable speed blowers in competitive units become louder and louder as CFM increases.

MAGIC LUNG®

VS

OTHER BRANDS

Each Magic Lung® blower supplies 300 CFM of air flow - combining multiple blowers will meet any air flow requirement without increasing the noise level.

EFFICIENT

Filters in competitive units obstruct air flow and spoil the collector properties of the canopy.

MAGIC LUNG®

VS

OTHER BRANDS

A range hood equipped with the Magic Lung® blower system is a wide open, active collector that invites contaminants in. A proper collector is the most critical element for good cooking ventilation and requires 1/3 less air flow than a filter-style range hood.

Designer Series

Designer Wall Mount

Designer Series Hoods Perform as Beautifully as They Look

FEATURES:

- Custom Designs
- Painted, Stainless and overlay finishes available
- All models include the Magic Lung® blower system
- LED lights, featuring a rotary switch for dimming
- Five Year Warranty

Available with:

- Multiple trim options, including lip treatment, vertical bands, horizontal bands, pot rails and corner bands
- **Design your own at www.ventahood.com**
