## OVERVIEW

This Price Guide is designed for easy reference.

There are three major sections:

1. James Martin's Vanities
2. Premium quality Mirrors
3. Top Options

Some vanity cabinets which are available with either James Martin Tops, or the customer may choose their own top.

Some vanity cabinets come with only one top option, as shown. These tops ship with the cabinet. Substitutions or changes are not available.

### Top Options

Our selection of tops now includes:

Two colors of natural marble in 3cm edge thickness  
One color of natural granite in 3cm edge thickness  
Four colors of Quartz in 3cm edge thickness  
One color of Solid Surface in 3cm edge thickness

**3cm Silestone Quartz** Tops have an eased edge. These tops ship with 11 3/4" x 17" rectangular, porcelain or Solid Surface undermount sinks.

**3cm Natural Stone** Tops have an eased edge. These tops ship with 13 1/2" x 16 3/4" Oval, porcelain undermount sinks.

**3cm Natural Carrara Marble and Solid Surface** Tops have an eased edge. These tops ship with 11 1/2" x 16 1/8" rectangular, porcelain undermount sinks.

Some series offer companion mirrors and linen cabinets.  
If a mirror or linen cabinet is not shown in this price guide, it is not available.

## WARRANTY

All products carry a one year manufacturer's warranty unless the item was clearly marked as a clearance or close-out item.

James Martin does maintain a Contract and Hospitality Division for commercial usage products.  
Please contact customer care with inquiries for projects requiring non-residential specifications.

We warrant our products from defect of workmanship.

The use of harsh abrasives, chemicals or cleaning solutions may void the warranty.

We reserve the right to repair using parts or technicians, or replace, at our discretion.  
All warranty claims should be submitted to Customer Care with proof of purchase.

For assistance with Warranty questions, please contact your James Martin customer service representative.

## CUSTOMER CARE + INVENTORY STATUS

We are glad you have chosen to work with James Martin Vanities.

We strive to offer the best possible products and support services.  
As part of our support, we utilize a ticket system.

If you work through our ticket system, we will be able to offer superior service, quickly.  
Inquiries, comments and concerns may be directed via email to:  
[customercare@jamesmartinvanities.com](mailto:customercare@jamesmartinvanities.com)

You will receive an immediate auto acknowledgement that our system has logged the ticket.

We will process and respond inside the ticket. This response will be sent to you via email.  
You may also view pending tickets via our Customer Care Portal.

In the portal you may view comment history, attach or view images and add notes.

Our portal also contains helpful information, such as FAQs.  
It also contains a community forum with period announcements.

Email correspondence will be automatically attached to tickets.  
This is an excellent way to notify us of any problems or issues. You may also inquire regarding product status and accounting questions.

You may log in directly from the James Martin website.  
Within this portal you may also view inventory status. The system will indicate either, In Stock or Out of Stock.

Through the portal you may also view Sales Orders with notations regarding tracking or ship date estimates.  
You may also place orders in the portal, as you have access to pricing, item numbers and images.

## PAYMENT

James Martin accepts all major forms of payment.

Many clients submit payment via major credit card or PayPal.  
Please note: We collect a 3% fee for processing with one of these forms of payment.  
If you want to avoid the 3% fee, please consider using an ACH (Automated Clearing House) payment.

If you desire to open a Line of Credit with James Martin, you will need to complete a Credit Application.  
All credit decisions are made by a 3rd party credit insurance company; Euler Hermes.  
If you do not agree with their decision, you are welcome to contact them for further discussion.

Decisions usually take less than 24 hours to process.  
Euler Hermes will monitor your credit and notify us of any material changes.  
If you would like to raise your credit limit, please contact James Martin customer service and they will contact EH to explore options.

Unless you have established credit with James Martin, payment is due at time of shipping.  
If you have established Credit with James Martin, then payment is due 30 days from the date of shipment.

## HOW TO SHIP

James Martin will gladly assist with freight services to your clients.

Our freight service will consist of an LTL curbside or dockside shipment.  
We will simply add the cost of freight to your invoice unless you indicate to us prior that you would prefer to have the items placed on Will Call and arrange your own transport (see below).

While we are unfortunately unable to accommodate quotes, we do believe our rates are very competitive.

Items will be packaged and palletized to minimize any chance for damage.

Delivery normally takes 5-10 business days.

Additional accessorial charges may be invoiced if they occur.

These may include charges not known until time of delivery such as missed appointments, high rise buildings, island deliveries etc.

While we do everything possible to minimize damages, if your client does receive an item with damage or potential damage, **it is imperative that we are notified within 48 hours of delivery.**  
The customer must also notate in detail, damage on the delivery document.  
Failure to follow these requirements may result in the claim being denied.

James Martin reserves the right to send a part and/or attempt a repair if possible.

If the item must be replaced, we will place the order and deliver at no charge to you.

After the item has shipped, we will provide you tracking so that you can follow the shipment independently. Tracking online is easy and efficient.

We are providing this service to assist you and your customer.  
Please understand that we are not the freight company and must follow all of their procedures and rules.

If you have any questions regarding our service, please feel free to email  
[customercare@jamesmartinvanities.com](mailto:customercare@jamesmartinvanities.com)

At James Martin, our vanities and mirrors provide exceptional value to the consumer as well as a reasonable and fair margin to our valued partners and dealers.

In order to help ensure that we maintain a level and fair playing field and to accommodate the wide variety of consumers and resellers of James Martin products, we do enforce and maintain a Minimum Advertised Price (MAP) for our products.

The MAP is specified in the price guide and is the minimum amount that the product can be advertised for sale when adding the price of the product and any related shipping costs. The costs must be able to be verified at the cart level without the need to login or provide any information other than zip code. The use of coupons, store discounts or cart discounts may be allowed provided that the pricing for a particular product is not advertised at less than the MAP. We understand there are countless methods for advertising products and sales. As such, James Martin shall make the final determination as to whether a particular advertisement is in violation of our policy.

James Martin may also, from time to time, adjust MAP pricing and / or product cost for specials for specified periods of time. In addition, any item that has been designated to be closed out may be advertised and sold at any price. MAP does not exist for discontinued items. When we do run a product promotion, the promotion price cannot be adjusted and advertised prior to the event kick off and must return to the prescribed MAP after the event has terminated.

You can notify [info@jamesmartinvanities.com](mailto:info@jamesmartinvanities.com) of any MAP violations and we will do our best to research and adjust the advertisement. In the event, we determine that you are in MAP violation, we will notify you to correct the pricing immediately. You will have 48 hours to adjust the pricing to MAP. Orders for incorrectly advertised items may not be accepted. Repeated violations or failure to adjust the ad may result in a suspension of shipping for your account and could result in a termination of your account.

GENERAL VANITY CARE

07

Wood is a natural material that is subject to changes in moisture and temperature. In other words, it moves and changes ever so slightly when exposed to humidity, heat or cold. Properly sealed and maintained wood and stone tops and cabinets are durable, beautiful and easy to use, but it is important to carefully follow the installation and care and maintenance instructions for your specific type of finish.

If you follow these directions carefully your vanity will be easy to maintain, will look great, and will last for many years. Your vanity, wooden backsplash and stone tops have all been finished with a water resistant finish. In the case of the backsplash, an additional sealing finish was added to make the top virtually impenetrable to water. These steps are essential to maintain your top and its warranty.

**DO NOT** use bleach based cleaning products on the finish. Bleach and ammonia are chemicals that we have found that will harm this finish. Be aware that some dishwasher detergents, such as Liquid Cascade, have bleach in them. If this type of detergent comes in contact with the finish, it should be wiped up immediately. If allowed to sit, it can harm the finish.

**DO NOT** use abrasive materials to clean your vanity or top. These would include bristle pads or similarly rough pads or dry cleaning products such as Ajax or Comet.

**DO NOT** cut, drill or change your top in any way without refinishing all exposed surfaces thoroughly. We recommend Cabot 8065 which can be found at [www.cabotstain.com](http://www.cabotstain.com).

Cleaning your top:

Wash your stone top with mild soap and water, and then rinse and dry. Disinfect with a weak solution of vinegar and water in a spray bottle, if desired. Be sure to dry the top thoroughly. We also recommend using only professional quality products (Guardman or Guardian) to polish or clean your wooden cabinet.

Problem Solving:

**Nicks, Scratches, etc;** Touch ups can be done at any time. Lightly sand the area and reseal the affected area using Cabot 8065 (or similar professional product).

**Color Variations:** Dark streaks can occur in wood. These are caused by a natural discoloring of the wood due to mineral deposits in the tree. Other color variations are natural characteristics of the wood. This is not a flaw or problem. It is normal and adds to the individuality of your top.

**Natural Stones:** Quarried natural stone by nature have conditions that cannot be controlled, i.e. Color, size, veining, fissures, & thickness, etc. Granite, marble, limestone, travertine & any quarried products offered have been cut from carefully selected stone blocks produced by Mother Earth. As a natural stone product, please understand that some stone may contain naturally occurring imperfections, which are characteristic to the stone. These characteristics will include color and shade variations, geological flaws, irregular markings, voids, veins, fissures, cracks, lines and/or minor separations. It is a standard practice by the manufacturer to repair these separations by one or more of the following methods: waxing, filling, or reinforcements with non-stone products. All of these variations and characteristics are common and present to some degree. However, part of the beauty of having natural stone is the characteristics, which will not impair the function or wearing of the materials.

James Martin's Quartz countertops are easy to clean and maintain by following a few common-sense tips.

For routine cleaning, simply wipe down your countertop with a damp cloth or paper towel and, if necessary, a small amount of non-bleach, non-abrasive cleanser.

Even though Quartz surfaces are self-sealing and resistant to staining when exposed to liquids (such as shampoo, soap, hair conditioners, and oils), you will want to wipe up liquid spills as soon as possible.

For stubborn or dried spills, use a nonabrasive cleaning pad such as a white scrub pad coupled with Formula 409 Cleaner or a comparable cleaning product.

STONE TOP CLEANING & MAINTENANCE

08

Granite & Marble Identification & Care

Granite is a resilient natural surface, popular for countertops and flooring and come in many different colors. Granite can best be identified by its crystal like or salt and peppered appearance. As you can see in these examples of Granite, there is a distinct crystal look to it. Yet other Granite has more of a speckled or salt and pepper look.

**CAUTION:** Some cleaners that contain acid can be harmful to granite and most cleaning products will leave a residue, causing a dull film and leave oils trapped in the pores of the granite that emit odors, as the oils become rancid.

The proper care for Granite is to use a high quality cleaner that is not only safe for the granite, but will travel into the pores of the granite, lifting out oils trapped inside, without leaving a residue. Cleaning is the most important step with granite followed by applying a sealer.

Sealing Granite is applying a safe clear durable substance to fill in its pores, which helps to keep out liquids which may cause stains.

The only polishing of granite should be done by a professional as this is serious work. A gloss conditioner may be applied to help bring out the inner beauty of granite, but beware that some granite does not change its appearance with gloss conditioners.

Marble is a beautiful natural surface with character which ranges from subtle to bold. It is best identified by its veins and swirls. Marble typically has a more flowing look to it, almost as though you can see the layers of sediment building up over the years.

Travertine is a type of marble with very large open pockets. This is great for providing a rustic look. Most Travertine has had its pockets filled, which can be detected by looking for many solid uniform colored spots that look different than the rest of the stone such as what you see in these photos. Travertine is cared for same as marble and is included in this marble section.

**CAUTION:** Marble is largely made of calcium carbonate like that in an anti-acid. Acid will eat the calcium out of the marble causing a damaged spot called an etch. Liquids which contain acid include coffee, sodas, most fruit juices, wine, vinegar, pickle juice, limes, lemons, oranges, many sauces, room fresheners, perfumes, glass cleaners and many cleaning products actually contain acids as well.

An etch can look like a dull spot, or the surface may have a slight uniform etch to it, where the entire surface has a dull or worn look. Adding a little vinegar to mop water is a frequent cause of this.

The proper care of marble is using a high quality cleaner to keep it free from oils and debris that cause it to look dull, have an odor and may even stain it. Keeping acids away from marble is essential for maintaining a high appearance. Sealing marble is highly recommended; however it will not protect the marble from acids, but it will help protect it from stains.

**Stains & Spills**

Blot the spill with a paper towel or soft absorbent cloth immediately. Do not wipe the area as it will spread the spill. Flush the area with plain water and very mild soap and rinse the area several times. Then dry the area thoroughly with a soft cloth. Repeat these steps, if needed. If the stain is still apparent, please follow the stain removal tips below.

Identifying the type of stain on the stone surface is essential, as it will assist with removal.

Oil-based stains will darken the stone and need to be dissolved to achieve successful removal. Use a nitrocellulose lacquer thinner (available at most home improvement and hardware stores) to treat this type of stain. Nitrocellulose lacquer thinner (NCL) may also be used to stains caused by ink and magic markers. Paint related stains can generally be removed by scraping the surface (carefully) with a razor blade, or with the use of NCL.

Metal related stains (iron, rust, copper, bronze) are difficult to remove and generally require the use of a poultice to draw out the discoloration. Deep seated rust stains are extremely difficult to remove and may cause a permanent stain. When in doubt, consult a professional.

Water spots and rings can generally be removed by lightly buffing the area with dry 0000 (very fine texture) steel wool.

Etch Marks may be treated with marble polishing power and using a damp cloth to buff the area.

**Do's and Dont's**

**Do:** Clean surfaces with very mild detergents or specialized stone soaps.

**Do:** Double check cleanser contents before use. Remember, no acid-based products.

**Do:** Thoroughly rinse and dry the surface after washing.

**Do:** Blot up Spills immediately.

**Do:** Promptly blot up common use items e.g. toothpaste, shampoo, hair dyes, polish remover.

**Do:** Re-seal your stone surface once per year.

**Do:** Use coasters and protective pads to prevent water rings and scratches.

**Do:** Consult a professional regarding any large projects or major stains or scratches.

**DO NOT:** Use vinegar, lemon juice or other bathroom cleaners containing acid.

**DO NOT:** Use bathroom cleansers with abrasive or "gritty" contents.

**DO NOT:** Use cleaning pads with abrasive surfaces.

**DO NOT:** Stand on the counter top to change overhead lights or clean the top of the mirror.

JAMES MARTIN VANITIES

# PREMIUM CABINET CONSTRUCTION

All James Martin cabinets are constructed with kiln-dried hardwood solids and hardwood plywood face with Maple or Birch veneers.

Our cabinets conform to all TSCA Title VI and CARB 2 standards and certifications.

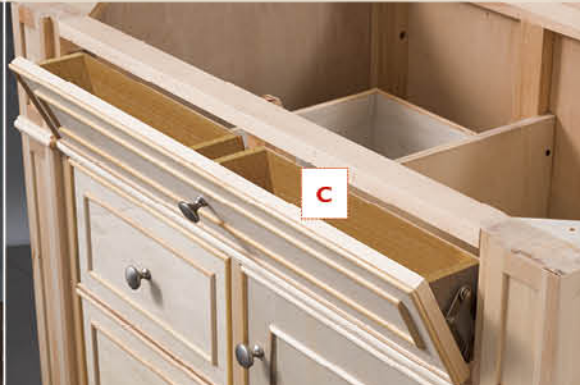

**A** Vertical supports are used for strength and to help distribute the weight of countertops.

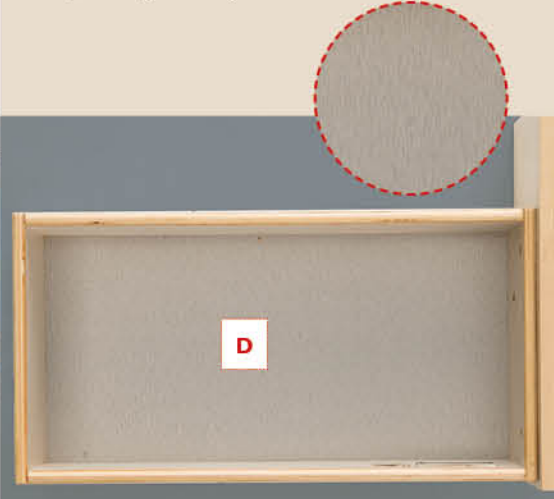

**B** Corner Brackets (Gussets) reinforce strength of the cabinet corners and also help distribute countertop weight. These brackets (also called braces) are secured with both wood glue and wood screws.

**C** Where space allows, many James Martin cabinets feature top row "tip out" Bamboo drawers for handy storage of small items. The containers are removable for easy cleaning.

**D** Our drawer bottoms feature brushed aluminum finish laminate for worry free storage of liquids, easy cleaning and a simple, modern aesthetic.

**E** All James Martin cabinets have drawer boxes crafted with classic English dovetail joinery. This type of strong joint has long been considered a hallmark of quality construction.

**F** Drawer box sides are constructed using either 13mm thickness plywood or 15mm solid White Poplar.

**G** Interior shelves are both adjustable (and removable), and pre-cut with channels to allow for plumbing drain pipes and access to water shut-off controls.

**H** Shelves are made from 1/2 inch (13mm) thick multi-layered plywood faced with stain-grade Birch or Maple veneers.

**I** In James Martin cabinets with narrow drawer boxes (which allow for undermount sink placement and pipes), we use panels to improve the visual appeal of the vanity and to prevent dust from settling inside the cabinets.

**J** James Martin cabinets (with the exception of our 206 and 207 series), feature full-extension and 3/4 extension, soft-close, undermount drawer slides. These slides have quick-release clips for easy removal of drawers.

**K** James Martin Cabinets feature soft-close door hinges, (except in instances where interior construction or the design style requires the use of traditional barrel hinges). These soft-close hinges have dual adjustments (up & down / forward & backward) top allow for alignment adjustments after the cabinets are installed.

**L** Many of our Transitional and Old World style cabinets feature decorative wooden backsplashes. These are included with the cabinets, so you need not order an optional James Martin countertop to receive one.

**M** All James Martin cabinets ship with full back panels. Since many of our cabinets are available without countertops (you may create your own custom design) our clients have requested we not pre-cut the panels, as the final plumbing locations are variable.

**N** All cabinet interiors and exteriors are sealed with moisture and UV resistant finishes.

**O** Cabinet bottoms are made from 1/2 inch (13mm) thick multi-layered plywood faced with stain-grade Birch or Maple veneers.

**P** Cabinet sides are made from 1/2 inch (13mm) thick multi-layered plywood face with stain-grade Birch or Maple veneers.

**James Martin Vanities is proud to announce our partnership with Silestone Quartz.**

**Silestone** is a division of the Cosentino Group, a global family-owned company which produces and distributes high value innovative surfaces for architecture and design.

With the involvement of its customers and partners, this leading company imagines and anticipates design solutions which bring value and inspiration to people's lives. This goal is made possible by pioneering brands which are leaders in their respective segments such as **Silestone®**, **Dekton®**, and **Sensa by Cosentino®**. Technologically advanced surfaces which allow create unique spaces and designs for the home and public spaces.

The Cosentino Group currently distributes its products and brands in more than 80 countries, from its headquarters in Almeria (Spain). Cosentino is present in 32 countries, with its own facilities in 29 of them.

**Silestone® by Cosentino**, world leading brand for quartz surfaces, is a material made of 90% natural quartz. Silestone® surfaces are highly stain, impact and scratch resistant as well as having a low liquid absorption rate. This material also features exclusive bacteriostatic properties for determined colors, numerous guarantees and certifications, and is supplied with the high level of service, quality and responsibility which is shared by all Cosentino Group products.

**Silestone®** is manufactured in over 90 colors, three textures and various formats making it very versatile; it can even be applied in large, joint-free pieces. It is the perfect material for use in a great many applications in kitchens and bathrooms as well as for laboratories, hospitals, hotels, restaurants and other professional uses.

In 2017, **Silestone®** once again showcased its leadership in the quartz surface industry, presenting the innovative technology **N-Boost**.

**N-Boost** modifies the surface of the material at a molecular level, thus enhancing further still the excellent technical and aesthetic features of the material. This innovative development, whose patent is owned by Cosentino, facilitates the easier cleaning and maintenance of **Silestone®** countertops.

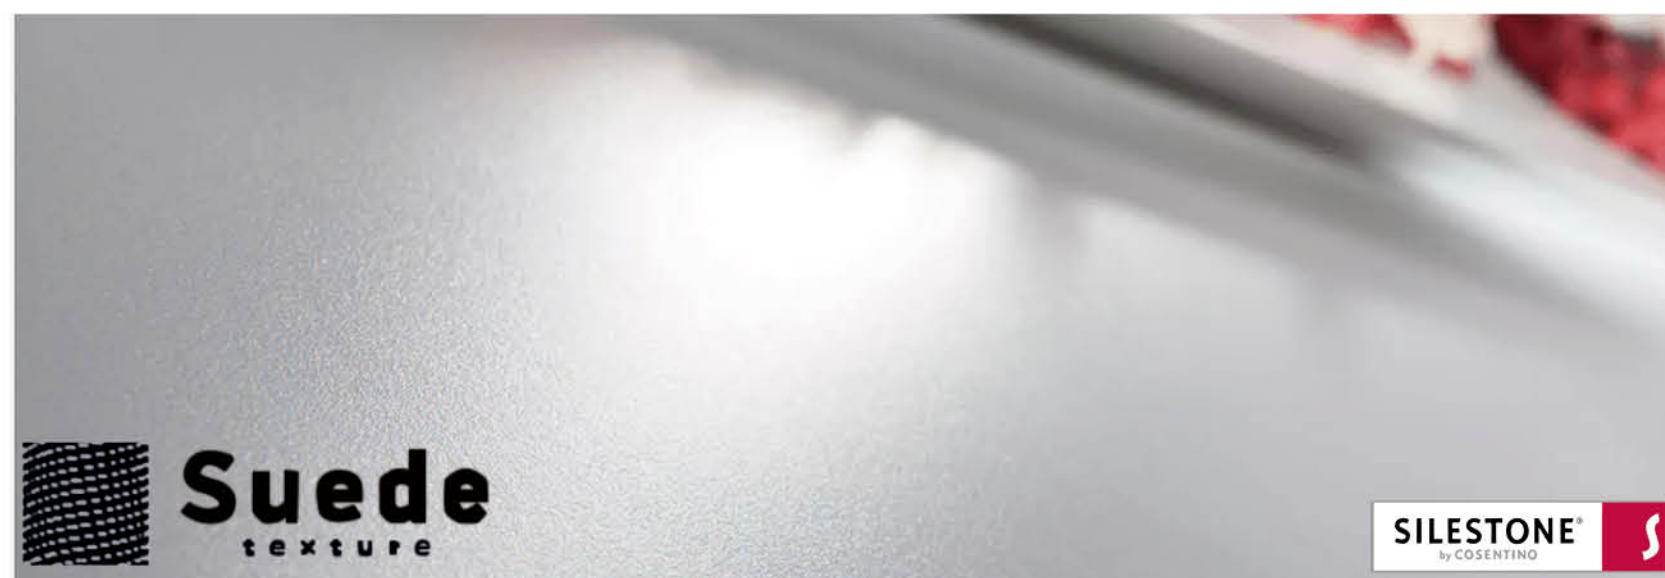

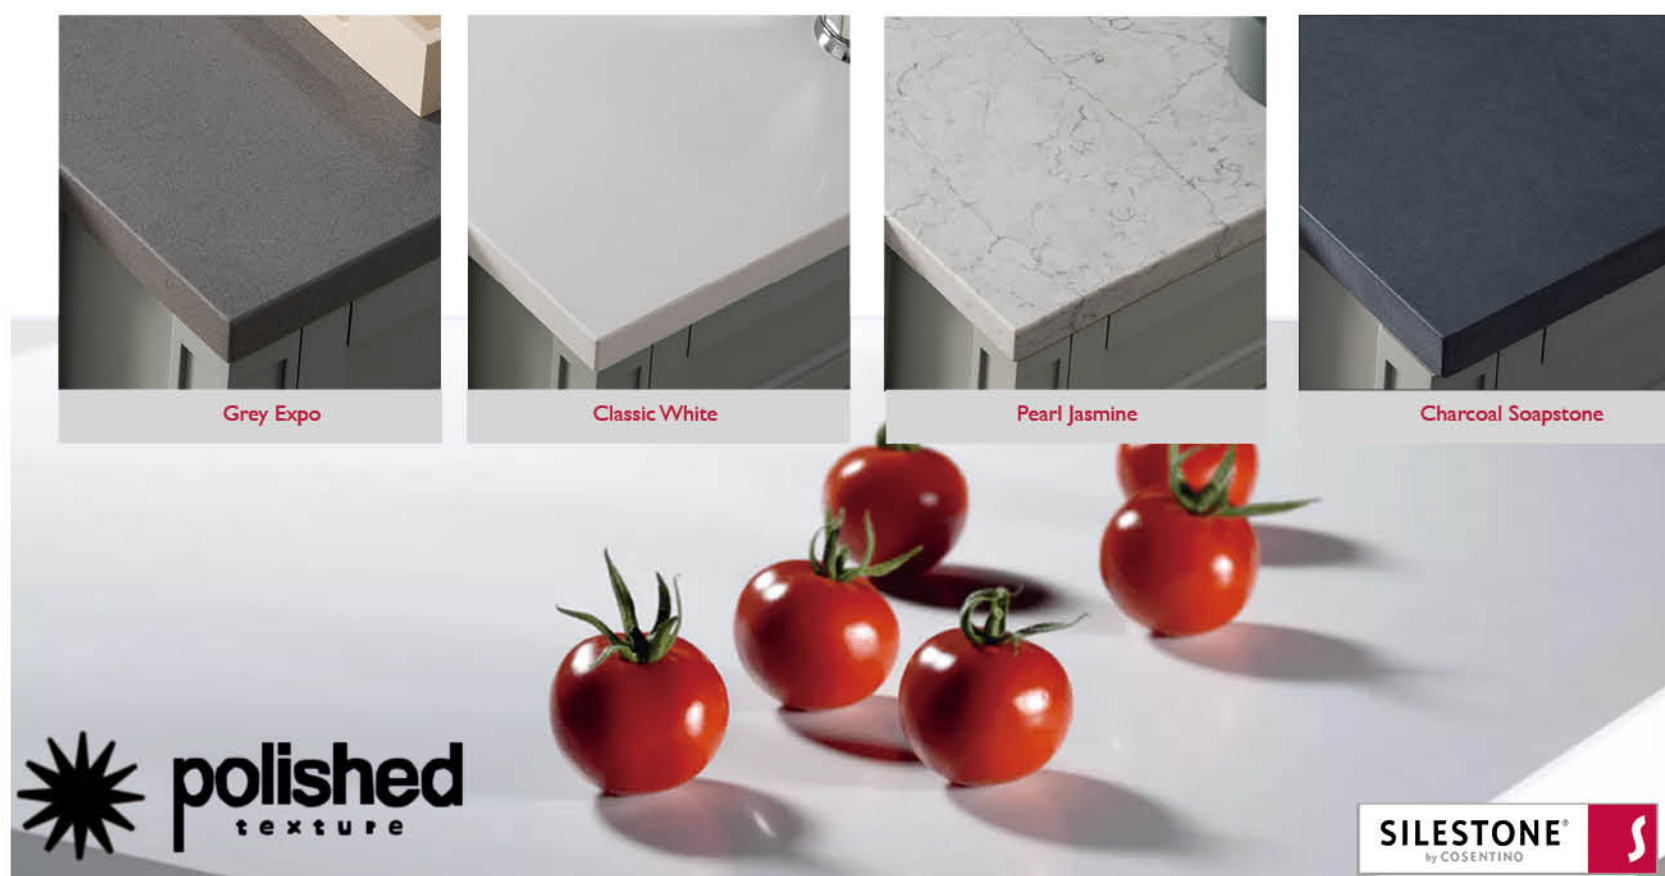

**N-Boost** also achieves a greater intensity of color and increases the level of surface brightness.

**N-Boost** has initially been launched with the Eternal and Iconic collections. **James Martin Vanities** has selected two N-Boost colors for our stocking program of 3cm thickness countertops: **Charcoal Soapstone** (Eternal), **Pearl Jasmine** (Eternal).

In addition to two three colors, we have added **Classic White** (Mythology) and **Grey Expo** (Mythology), to round out our offerings of neutral colors from brightest white to deepest black.

**Charcoal Soapstone** has a finish called Suede; a matte texture with a soft touch and high color consistency.

**Classic White, Grey Expo, Pearl Jasmine** are offered by James Martin with a classic Polished Finish.

**Premium solid surface sinks**

James Martin has introduced premium sinks specifically made for our 3cm Silestone quartz countertops.

These rectangular undermount sinks are crafted from pure acrylic solid surface and features four colors curated to coordinate with our five standard colors of Silestone quartz.

These solid surface sinks are rated for both residential and commercial use and carry certifications from UPC, ANSI, CB-PVS OCPS, CSA and IAPMO.

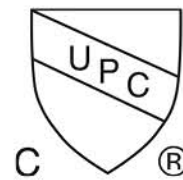

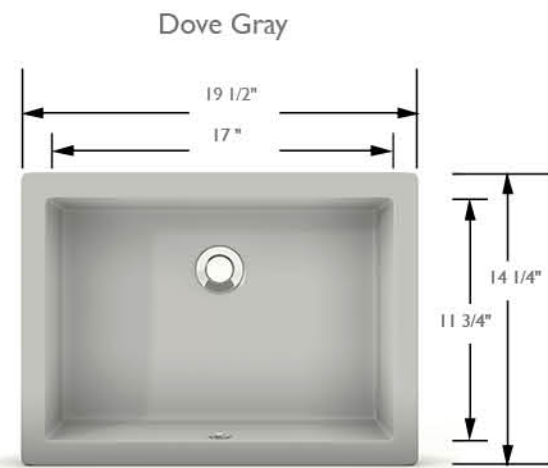

Acrylic solid surface materials are prized for the superior resistance to staining, fire and mildew. Our solid surface sinks are also resistant to fading and discoloration from ultraviolet sources.

Pictured on the right, are James Martin's four sink colors: Bright White, Dark Gray, Dove Gray and Natural Concrete.

All sinks are offered with a polished finish for easy cleanup and maintenance and overflow drains for safety and convenience.

When paired with our Silestone countertops, these classically colored sinks allow you to thoroughly craft your bathroom's personality.

Whether your style is boldly basic to mid century modern to coastal cottage, these premium sinks provide the finishing touch.
